Vesterbrogade 184

27.05-24.06.05

Wicked Games was curated by Nasim Weiler (Art Agent, Hamburg) and presented four artists not previously shown in Denmark. The exhibition brought together narrative and image-based practices, where personal symbolism and visual storytelling played central roles.

Wicked Games also marked the final exhibition at Stalke Galleri's space on Vesterbrogade 184, concluding a decade in which Kim Bendixen was an active part of the gallery. After this exhibition, Stalke Galleri continued under Sam Jedig in Kirke Sonnerup with Stalke Out of Space projects. Markus Vater later contributed to the Artstamp project, extending the collaboration initiated here.
